Celebrating 50 Years!

This year, we're celebrating 50 years of offering our customers the highest quality products at the best value. James Campion, our CEO, founded Zirc in 1967 and his daughter Nicolle, who was recently promoted to President, joined the team in 2000. Dental technology and processes have seen many changes over the last 50 years, but at Zirc, our commitment to providing time-saving, innovative dental products continues to be our top priority.

Zirc Perks

Members receive FREE samples, money-saving promotions, tips to get organized and stay organized, product evaluation invites, and more! Sign up to become a Zirc Perks Member via www.zirc.com or call us at +1 763-682-6636 (available in U.S.A. and Canada only).

Made in the USA

Since 1967, Zirc has provided the dental industry with new and innovative products used for sterilization and organization in the dental office. Our headquarters, located in Buffalo, Minnesota, houses our engineering, tooling, manufacturing, distributing, and customer service operations. We're proud to say that our state-of-the-art, high-quality products are made in the U.S.A.

Antimicrobial

Antimicrobial compounds are intended to protect parts against staining, odors, and degradation due to fungi, mold, yeasts, mildew, algae, and other microbes. Zirc incorporates antimicrobial compounds during the manufacturing process. Unlike a coating, this prevents fading or wearing away, giving you long-lasting protection. The incorporation of antimicrobial compounds in our plastic products is not intended to protect users or others against food-borne or disease-causing bacteria. For more information, please reference EPA Registration Notice 2000-1.

WANT TO MAXIMIZE SPACE?

E-Z Jett® Compact 8-place Slim

Our autoclavable E-Z Jett® Cassettes extend the life of your instruments by protecting and keeping them together through your procedures and sterilization process. They are designed for superior water flow during cleaning and have non-slip feet for stability and safety.

- Holds 8 instruments
- Covers attached to the cassette open and fold back easily
- Compact size. Fits the Statim
- Maximizes the space of the Ultrasonic and Autoclave
- Stackable in Ultrasonic. Cassettes lightly attach to one another
- Antimicrobial incorporated during manufacturing process
- Syringe Tip Holder included
- Autoclavable

**Maximize space!
Stackable in Ultrasonic
and Autoclave!**

FUN & EASY PERSONALIZATION

Imprinting Features Now Available

We now offer new and improved personalized imprinting options for our popular denture and retainer boxes. Add your logo or unique message or choose one of our fun or professional designs.

Choose Your Message with New Imprinting Options

- Showcase Your Brand – Add contact info and upload your logo
- Make it Fun – From emojis to superheroes, our fun designs will bring a smile
- A Professional Image – Choose from one of our classic designs to enhance your brand

AVAILABLE SPRING 2017

Performance Tool Organizer

A deeper, roomier cassette made for specialty instruments that will not fit in standard cassettes. Design your own layout with our customizable, removable feet. The feet can be positioned to support and protect your valuable instruments. Use the Performance Tool Kit in conjunction with any of our E-Z Jett® Cassettes, which hold your hand instruments. Designed for superior water flow for superb cleaning. See page 15 for full details!

ORGANIZE WITH EASE Why Color Coding?

Increase Profitability

Color coding decreases time for setup and clean up, allowing you to see more patients. It also reduces the amount of inventory needed, limiting expired materials.

Other Benefits

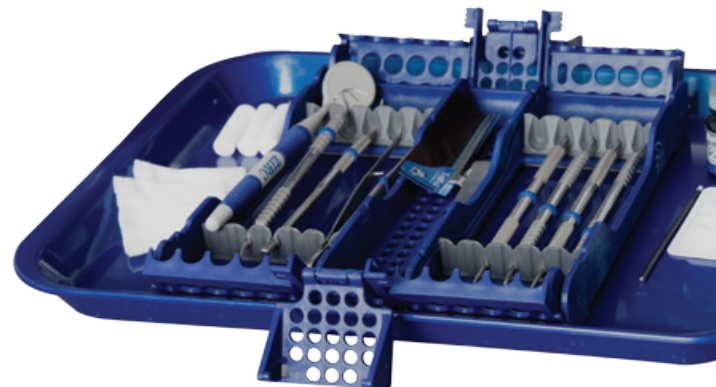

- Simplified training of new staff
- Decreases amount of inventory – fill one tub vs. stocking multiple treatment rooms
- Easy and efficient re-stocking of dental materials
- Reduces the amount of expired materials
- Reduces the risk of an exposure incident
- Eliminates the need to stop a procedure so the assistant can find a missing instrument or material
- Contains dirty instruments in covered, puncture-proof, leak-proof containers satisfying the CDC and OSHA standards
- Small items stay organized and at your fingertips
- Set-ups appear organized, sanitary, and visually pleasing to patients

Want help on how to color code in your dental office?

For more information, visit us online to download our Color Coding brochure.

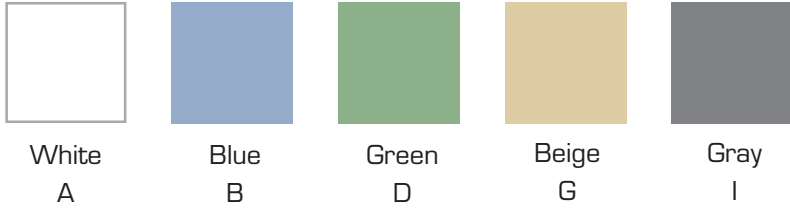

Color coding has been proven to save time for each procedure and will allow you to see more patients in a day.

Implant Tub

SMALL CHANGES Big Results

Cluttered drawers = stress and chaos. Stay efficient with color-coded organization.

Start by removing everything from your operatory drawers. Place in a large box and set aside. Restock your operatory drawers with staple supplies such as: bibs, saliva ejectors, cotton products, etc. (basically, anything you use in EVERY procedure).

Here's where the Tubs come into play. You need a minimum of one Tub for each procedure. Each Tub should be a different color so that you can quickly identify procedures by color. Stock each Tub with all materials you will need for that procedure.

Store ALL Tubs in a central area (such as sterilization). Take the Tub into the treatment room when a procedure is performed. Pull out what you need at chairside. Disinfect and re-store.

Reduce your stress and have fun with color organization.

MAKE IT SIMPLE WITH AN All-In-One Kit

Our kits are designed to store and organize materials and keep your inventory under control. In addition, they are easily portable for transportation between procedures and your centralized location for sterilization, disinfecting, and restocking.

Complete Tub

Includes: Procedure Tub, Tub Liner, Tub Dividers, Cup/Cover Single, Cup/Cover Double, Divided Slide Tray, Safe-Lok Cover for Tub®.
Dimensions: 12-5/8" x 11-1/4" x 4"

(20Z455) Available in all colors

AM S

Use: Any Procedure

Composite Kits

Store and organize composite materials with our convenient Composite Kits. When stored in a Tub, contents become portable and can be transported to a central sterilization area for disinfecting and restocking. Organizational tools help you keep better inventory control with Clip-On Holders that allow you to separate composite for use during procedures. Included Long Tub Cup and Slide Tray provide additional organizational space and Shade Label Sheet provides self-stick labels preprinted with composite shade.

Syringe Composite Kit

Syringe holder allows you to store up to 40 syringe tubes. Kit includes: Syringe 20-Unit Stand, 1 Long Tub Cup/Cover, 1 Divided Slide Tray, 1 Syringe Clip-On Holder, Shade Label Sheet 2pk.

(20Z489)

AM S

Capsule Composite Kit

Long Tub Cups provide a total of 20 compartments for capsule storage. Includes: Tub Liner, 4 Long Tub Cup/Cover, 1 Divided Slide Tray, 1 Capsule Clip-On Holder, Shade Label Sheet 2pk.

(20Z479)

AM S

Build Your Own Tub

Procedure Tub

Allows you to "build" your own setup.
Dimensions: 12-1/4" x 10-7/8" x 2-3/4"

(20Z463) Available in all colors

Safe-Lok® Tub Cover

Locking cover for securing materials.
Keep materials protected during storage and transportation.
Dimensions: 12-1/4" x 10-7/8" x 2-3/4"

(20Z459)

Tub Liner

Foam liner that sits in bottom of Tub.
Tub not included. Replace as needed.
Dimensions: 9-5/8" x 8-5/8" x 1/8"

(20Z462)

Tub Box

Designed to hold/organize "hard-to-find" supplies.
Non-slip bottom for secure placement.
Dimensions: 3-3/4" x 3-5/8" x 1-7/8"

(20Z474) Gray Only

Tub Insert

10 compartments for easy organization.
Sits on rim of Tub, allowing for storage underneath.
Dimensions: 10-3/4" x 9-11/16" x 1"

(20Z465) Gray Only

Tub Dividers

Creates up to 24 compartments.
May be cut or trimmed to create larger compartments.
Dimensions: 10-1/16" x 9-1/16" x 1-5/16"

(20Z461) Gray Only

Use color-coded tape on Tub Cups and Tub Box to identify procedural contents. (Learn more on page 19)

Tub Cups with Covers

Fill Tub Cups with brushes, clamps, cotton pellets, prophylaxis angle tips, prophylaxis paste, pumice, syringe tips, implant tools, etc. Can be used in procedure tubs, drawers, on trays, etc. for small, easy-to-lose items. Covers are transparent.

Single Tub Cup with Cover

Dimensions: 2-1/4" x 1-5/8" x 1-1/8"
(20Z471) Gray Only

Double Tub Cup with Cover

Dimensions: 3-3/8" x 2-1/4" x 1-1/8"
(20Z472) Gray Only

Long Tub Cup with Cover

Dimensions: 8-3/8" x 2-5/16" x 1-1/8"
(20Z473) Gray Only

Divided Slide Tray
Dimensions: 9-3/4" x 5-3/8" x 1-1/16"
(20Z466) Clear

Flat Slide Tray
Dimensions: 9-3/4" x 5-3/8" x 1-1/16"
(20Z467) Clear

Shade Label Sheets 2pk
Preprinted labels for marking Tub materials by procedure. Shade Labels can be used with the Syringe Composite and Capsule Composite Tub Organizers.
Dimensions: 7" x 4-3/8" x 1/64"
(20Z477)

Slide Trays

Sits on rim of Tub and allows for storage underneath.

Check out our Implant and Restorative Organizers on page 40.

Syringe 20-Unit Stand

Stands up for easy access to composite. Lays flat to fit inside Tub or drawer. Holds up to 20 syringe tubes. Has space for 2 Syringe 10-Unit Add-Ons (Stand can hold up to 40 syringes).
Dimensions: 8-3/4" x 4-3/4" x 1-9/16"
(20Z487)

Syringe 10-Unit Add-on

An Add-on for the Syringe 20-Unit Stand. Gives additional space for syringe storage. Holds 10 syringe tubes.
Dimensions: 8-9/16" x 2-5/16" x 3/4"
(20Z488)

Syringe 20-Unit Stand

The Syringe 10-Unit Add-on may be added for storage of up to 40 syringe tubes.

Syringe Clip-On Holder

Allows quick access to composite during procedure. Conveniently clips on any side of Tub, B-Lok Tray or Capsule Composite. Holds 15 syringe tubes and 3 applicator tips.
Dimensions: 8" x 2-7/16" x 3/4"
(20Z486)

Capsule Clip-On Holder

Allows quick access to composite during procedure. Conveniently clips on any side of Tub or B-Lok Tray. Holds 8 capsules, 4 syringe tubes, and capsule/gun dispenser.
Dimensions: 8" x 2" x 9/16"
(20Z476)

Trays & Covers

Are you in compliance?

Trays

Our exclusive Safe-Lok® tray cover provides an excellent method of infection control and safety that allows for two benefits other trays do not:

- 1 Prevents any contaminated items from falling off of the used tray during transportation from operator to central sterilization. The contaminated items stay enclosed until you are ready for the cleaning and sterilization process.
- 2 Set up your procedure trays ahead of time with all instrumentation needed. The Safe-Lok® cover securely locks to the tray, not only keeping items clean, but also allowing for safe transportation to chairside. The cover is removed once the patient is in the chair and the procedure begins.

OSHA

Immediately or as soon as possible after use, contaminated reusable sharps shall be placed in puncture-resistant, leak-proof and labeled or color-coded containers until properly reprocessed. (To avoid spillage of contents, it is suggested that they be covered and secured prior to moving.)

CDC

Dirty Instruments must be "contained" prior to transporting them. Containment can be defined as **instrument cassettes** or cages in which dental care items are cleaned, sterilized, and stored until point of use. Sharp instruments should not be carried openly to the instrument-processing area. Percutaneous injuries may occur to other dental healthcare personnel (DHCP) or patients in hallways leading to the instrument-processing area.

The Safe-Lok® Tray Cover helps prevent cross-contamination and provide safe transportation back to the sterilization area.

B-Lok Flat Tray

Wide edges for secure grip.
Non-slip feet for stability.
Self-lubricating, high-gloss surface helps prevent staining.
Dimensions: 13-3/8" x 9-5/8" x 7/8"

(20Z401) Available in all colors

B-Size Safe-Lok® Tray Cover

Fits B-Lok Flat and Divided Trays only.
Side locking mechanism securely locks cover to tray.
Dimensions: 13-7/8" x 9-7/8" x 3/4"

(20Z445)

B-Lok Divided Tray

Holds 12 hand instruments.
Bur holder for 9 FG, RA, or HP burs.
Comes with Insti-Grip.
Non-slip feet for stability.
Self-lubricating, high-gloss surface helps prevent staining.
Holder for Syringe Tip or Saliva Ejector.
Dimensions: 13-3/8" x 9-5/8" x 7/8"

(20Z451) Available in all colors

FOR B-LOK DIVIDED TRAY

Insti-Grip

To be used with the B-Lok Divided Tray only.
Holds instruments quietly and safely in place.
Dimensions: 6-5/8" x 1/4" x 3/8"

(20Z454I)

Mini Tray

Self-lubricating, high-gloss surface helps prevent staining.
Non-slip feet for stability.
Wide edges for secure grip.
Mini Trays are great for hygiene/exam setup.
Dimensions: 9-3/8" x 6-3/8" x 7/8"

(20Z101) Available in all colors

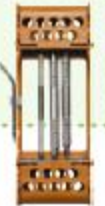

Mini-Lok Tray Cover

Side locking mechanism securely locks cover to tray.
Dimensions: 9-7/8" x 6-5/8" x 1"

(20Z103)

Our E-Z Jett® Cassettes fit on Zirc Trays with locking cover! See page 13 for E-Z Jett® Cassettes.

**The most efficient method
of infection control.**

B-Size Tray Cover (Non-Locking)

Dimensions: 14" x 10-1/8" x 5/16"

(20Z441)

Mini Tray Cover (Non-Locking)

Dimensions: 9-7/8" x 6-5/8" x 1"

(20Z102)

Multi-Mod Racks

SAVE ON SPACE & Organize Your Office

Tub, tray, and cassette racks are very effective additions to a dental office. They save on counter space and several tubs or trays with covers can fit into one rack. These racks have non-slip feet so they are very stable on any counter or cabinet surface. With a chrome-plated finish, these racks can fit any dental office design.

Multi-Mod Rack 8-Place

Holds 8 Trays or 4 Tubs with covers.
Adjustable to hold Trays, Tubs, and Cassettes.
Sturdy metal construction; chrome-plated.
Non-slip feet.

(21Z410)

Multi-Mod Rack 6-Place

Holds 6 Trays or 3 Tubs with covers.
Adjustable to hold Trays, Tubs, and Cassettes.
Sturdy metal construction; chrome-plated.
Non-slip feet.

(21Z105)

Mini Trays and Cassettes*

WHY USE Zirc's Cassettes?

A low-cost investment with a quick return! Individual instrument handling takes time away from treating patients and increases overall processing time. Zirc's cassettes will prolong your instrument's life and save you time without breaking the bank.

In a 2014 Implementation of Cassettes Case Report, Marie T. Fluent, DDS, writes how the dental office benefited from the transition from no cassettes to using them with every procedure: "Drs. Dale and Thomas were both grateful that they chose to implement ... an Instrument Management System for the organization, processing, and handling of their instruments within their practice. They agreed that cassettes improved all aspects of instrument management... Initially, their opinions were varied; however, at the conclusion of the one-year anniversary, no clinical staff could imagine processing instruments in any other fashion. Cassette usage had become organized, efficient, safe, and routine." Read the article in its entirety at: www.dentaleconomics.com.

- Designed for superior water flow and cleaning - open top, round holes, and radius corners
- Keeps instrument setups together through sterilization and procedure processes
- Protects instruments from extensive damage and prolongs their life
- Non-slip feet for stability and safety
- AUTOCLAVABLE
- Available in 16 colors for color coding by procedure

Keep the workplace organized and confusion to a minimum!

Bur Guards

PROTECT YOUR BURS
Steri-Bur Guards

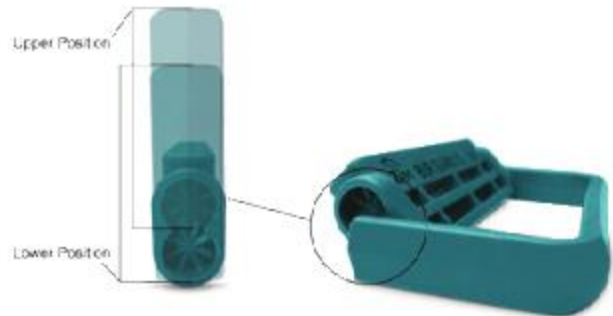

Steri-Bur Guards and Adapters

This gadget has it all! Not only does it protect your burs during cleaning and sterilization, but it also can be positioned at three different angles to give you easy access at chairside.

Steri-Bur Guard

- Fits FG, RA, and HP Burs
- Adjustable height for multiple-length burs (Surgical Bur Guard not adjustable)
- Holds bur in position for maximum cleaning effectiveness
- Drain holes help prevent rusting of burs

12-Hole Bur Guard

Accommodates burs from 12mm-30mm.
Dimensions: 2-7/8" x 3/8" x 1-3/8"

(50Z406) Available in all colors

22-Hole Bur Guard

Accommodates burs from 12mm-30mm.
Dimensions: 4-7/8" x 7/16" x 1-7/16"

(50Z410) Available in all colors

12-Hole Tall Bur Guard

Accommodates burs from 30.9mm-37.1mm.
Dimensions: 2-7/8" x 3/8" x 1-5/8"
Ideal for nose-cone lab burs

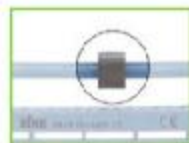

(50Z408) Available in all colors

A Short Bur Adapter is included to stop any shorter burs from falling out.

Universal Bur Adapter 5pk

Can be used with 12- or 22-Hole Bur Guard.
Enables long and short burs to be used in the same bur guard without short burs falling out.

(50Z412)

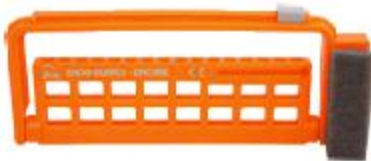

Endo Guards

A unique delivery system to organize, store, and sterilize endodontic files and reamers. The Endo Guard swivels 360° with stops at every 45° for operator's choice. Large slotting provides complete visibility and draining during cleaning.

Steri-Endo Guard

- Holds most lengths for staging, cleaning, and sterilizing files and reamers
- Millimeter gauge measures and positions rubber stopper
- Counter on locking bar tracks the number of sterilizations
- Right- or left-hand use; optional angling
- Available in Hand or Engine styles
- Single-use foam insert cleans/holds files (packaged with 12)

Steri-Endo Guard Engine

Organizes up to 11 engine and 5 hand files/reamers.
Dimensions: 5-3/8" x 3/8" x 2-3/16"

(50Z452) Available in all colors

Steri-Endo Guard Hand

Organizes up to 16 hand files/reamers.
Dimensions: 5-3/8" x 3/8" x 2-3/16"

(50Z450) Available in all colors

Foam Inserts

Single use.

(50Z451) 48pk

(50Z451V) 144pk

Unique organizer rests on your finger.

Endo Assist

Built-in millimeter gauge measures and positions rubber stopper. For right- or left-hand use. Small and large rings are included to accommodate most finger sizes. Flat bottom enables the Endo Assist to stand freely on its own. Single-use foam insert cleans/holds files (packaged with 12).
Dimensions: 1-1/2" x 1-3/4" x 1-5/8"

(50Z460) Available in all colors

Assist Stand

Dense foam cleans bio-debris faster and more easily. Holds Endo Instruments in an upright position. Square shape fits great in procedure tub. Thicker foam prevents solution from leaking. Rounded corners for easy cleaning.
Dimensions: 1-7/8" x 1-7/8" x 1-3/8"

(50Z462) Black Only

Assist Stand Foam

Single use.

Dimensions: 10-1/2" x 7-3/4" x 7/8"

(50Z466) 48pk

Dimensions: 10-1/2" x 7-3/4" x 7/8"

(50Z466V) 144pk

Bur Blocks

Magnetic Bur Blocks

- Fits FG, RA, and HP Burs
- Magnetic base holds burs securely
- Non-slip feet for stability
- Drain holes help prevent rusting of burs

14-Hole Bur Block Covers 1" High - Standard

Dimensions: 3-1/8" x 1-5/8" x 1-1/16"
(50Z404)

14-Hole Bur Block Covers 2" High - For Surgical Burs

Dimensions: 3-1/8" x 1-5/8" x 2-1/4"
(50Z405)

How to effectively identify your instrument setup.

- 1 color for practitioner:**
Neon Orange shows ownership to the practitioner.
- 1 color for procedure:**
Neon Blue is for identifying the procedure.

Did you know?

The diagonal setup of the orange Rings shows the order of how the instruments should be used. This eliminates confusion between the doctor and assistant.

Place your instrument to determine which ring size you need.

Pedo/Small Adult

Medium/Large

The Efficiency of Hands-Free Isolation

A hands-free isolation device that retracts, isolates, and evacuates! Work continuously without the repeated use of suction, minimize your isolation inventory, and gain a quick return. With two convenient color-coded sizes, these one-time use isolation devices are the perfect cost-effective tool for your dental office.

- Built-in bite block for patient comfort
- Connects directly to HVE Valve
- Keeps work environment dry

Pre-Assembled

The new mr. thirsty® one-step is ready to use and is single use! Just insert into your HVE Valve (one-step!).

2 Sizes Available

mr. thirsty® one-step comes in two convenient sizes, Pedo/Small Adult and Medium/Large. It can also be trimmed for a custom fit!

10pk Trial Kit

Includes 5 of each size:

- (5) Pedo/Small Adult
- (5) Medium/Large (50Z987)

25pk

- Pedo/Small Adult (50Z986SM)
- Medium/Large (50Z986LG)

ALSO AVAILABLE IN 100 PACK

Replacement HVE Valve can be found on page 33

Comfort Kit

The Comfort Kit's lightweight tubing allows your heavy HVE Valve/Tubing to stay mounted to the equipment.

Includes:
 Rotary plastic HVE Valve
 6' lightweight tubing
 mr. thirsty® one-step NOT included (50Z992)

Take comfort to the next level with lightweight tubing!

mr. thirsty® one-step benefits everyone! Here's how...

DOCTOR

Doctor
25% average decrease in procedure time. Hooks directly to HVE Valve. Single-Use.

HYGIENIST

Hygienist
Reduce chair time by as much as 20%. Hands-free continuous suction. Ease patient anxiety.

mirror magic® Anti-Fog Solution

without mirror magic®

with mirror magic®

mirror magic®
anti-fog system

**Anti-Fog
Solution removes
debris from dental
instruments!**

mirror magic® Trial Kit

2-6ml bottles of Anti-Fog Solution
24 Swipe Pads
(50R200)

Increase Your Chairside Efficiency

The mirror magic® Anti-Fog System prevents fogging on mouth mirrors and offers the practitioner a quick method for removing debris during procedures. The disposable Swipe Pads stick to the back of a gloved hand or a patient bib for easy access. The Anti-Fog System requires only a small amount of solution and is economic in size, making it easy to store.

Watch the magic in action
at www.zirc.com/mirrormagic

Combine mirror magic® with Crystal HD®
Mouth Mirror for the best view in dentistry.

"The mirror magic® Anti-Fog System decreases fogging while also decreasing the build-up of debris on my mirror. This affords me outstanding visualization, which is crucial to performing quality dentistry. mirror magic® has truly made a difference in my practice and is one of those features I didn't realize I needed; and now I can't imagine practicing without it."

— Andrew M. Goldsmith, DDS, DICOI, FIALD

Easy to grip	X	
Sealable lid	X	
No threads to strip	X	
Pressure relief valve	X	

We strive to make things easier around the dental office.

The Steri-Soaker

An efficient, high-volume germicide tray designed for maximum use of chemicals to clean/disinfect instruments. It is designed for easy cleaning and is large enough to accommodate ZIRC Steri-Containers, Cassettes, Bur Blocks, and Bur Guards.

Steri-Soaker

Calendar on lid conveniently reminds staff when to change the solution; use color code rings to mark dates.
Transfer basket's ribbed and perforated design allows quick drain-off and easy pick-up of instruments.
Holds 3.78L of liquid; fill lines shown in quarts and liters.
Hinged fitted cover.

Safe-to-use chemicals: cleaners (enzymes, detergents), disinfectants (phenols)/cold sterilants for glutaraldehyde and chlorines.
Dimensions: 13-7/8" x 9-5/8" x 5-1/8"

(50Z805) Color Code: B, I

Designed for easy cleaning!

E-Z Access Shelf

E-Z mounting to standard equipment post (1-3/4" - 2-1/4"); No tools needed.
 Will not damage post's finish.
 E-Z adjustment to multiple positions.
 Contoured edge to contain spills and materials.
 Stain resistant finish; surface disinfect only.
 Weight capacity of 25 lbs.
 Workable tray area: 13-3/4" L x 10-1/4" W.
 Standard E-Z Access Shelf as is accommodates 1-3/4" to 2-1/4" post.
 Rotates 360°.

(20Z420) Color Code: A, G, I

Provides easy access work space for auxiliary items.

E-Z Access Shelf Adapters

E-Z Access Shelf Adapter for Smaller Posts

Adapts to posts 1-3/8" to 2-3/4".
 Dimensions: 2-1/8" x 1-7/8" x 3/4"

(20Z422) Color Code: A, G, I

3-1/2" Bolt Adapter Kit for Larger Posts

Accommodates post sizes from 2-1/4" to 2-3/8".
 Dimensions: 4" x 2" x 2"

(20Z437) Color Code: A, G, I

4-1/2" Bolt Adapter Kit for Larger Posts

Accommodates post sizes from 2-3/8" to 2-3/4".
 Dimensions: 4-1/2" x 2" x 2"

(20Z438) Color Code: A, G, I

Cup Holder-Snap On

Fits all standard cups.
 No tools needed.
 Dimensions: 3-1/8" x 2-1/2" x 1"

(20Z436I)

E-Z Access Shelf Surface Mount

Mount on horizontal flat surface only.
 Dimensions: 3-3/4" x 3-3/4" x 2-7/8"

(20Z424) Color Code: A, G, I

Our products are able to fit every need!

8" Extension Arm

Enables shelf to extend over patient.
 Shelf has strength to hold 25 lbs. when connected to arm.
 May be used with Wall Mount, Surface Mount, or directly to post.
 Dimensions: 10" x 4" x 4-1/2"

(20Z428) Color Code: A, G, I

Wall or Cabinet Mount

Allows you to mount the E-Z Access Shelf onto a wall or the side of a cabinet. 90° angle of mount permits 180° movement of shelf on cabinet or next to wall.
 Dimensions: 6-1/2" x 5-3/4" x 4-7/8"

(20Z426) Color Code: A, G, I
